

## GUARANTEED ANALYSIS

Total Nitrogen (N).....	4%
4.0% Urea Nitrogen	
Soluble Potash (K <sub>2</sub> O) (Potassium Carbonate)	24.0%
Iron (Fe) .....	0.1%
0.1% Chelated Iron (Fe)	
Humic Acid .....	15.0%
Derived From: Potassium Carbonate, Urea, Iron EDTA, and Ascophyllum Kelp.	

Chelating agent is EDTA (ethylenediaminetetraacetic acid)

## 4-0-24 PLUS

### *PLANT NUTRIENT DESIGNED TO MAINTAIN PLANT VIGOR*

This product contains: Sea Plant Extracts from Ascophyllum nodosum (Kelp)  
Carbohydrates from Natural Plant Sources  
Recommended Application Rate: 1-2 pints per acre

**AVOID FREEZING. WARM, SHAKE AND RESUSPEND BEFORE USING.**

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

Net Contents: 2.5 Gallons  
Net Contents: 250/260/275 Gallons  
Weight Per Gallon: 11.0 lbs.

**General Information:** Plant Agra 4-0-24 Plus is a fertilizer containing extracts of fresh *Ascophyllum nodosum* Kelp for agronomic crops including, but not limited to Alfalfa, Corn, Cotton, Peanuts, Soybeans, Strawberries, Sugar Beets, Stone Fruit, Grapes, Apples, Pears, Nutcrops, Citrus, Avocados, Tree Crops, Row Crops and Vegetables. Used alone, Plant Agra 4-0-24 Plus will not provide all of the nutrients ordinarily required for commercial production of these crops, but it contains both macronutrients such as N, P, K, Ca, Mg, and S, micronutrients such as Mn, Cu, Fe, Zn, and other agents such as cytokinins, gibberellins, betaines, mannitol, organic acids, polysaccharides, amino acids, and proteins that may be beneficial, and the product is intended to be applied as a foliar spray or in irrigation water as a supplement to a regular fertilizer program.

**Foliar Applications:** Add Plant Agra 4-0-24 Plus to other fertilizer formulations or apply alone in irrigation water or as a foliar spray at 1-2 pints of product per acre with a total spray volume of at least five gallons per acre.

Use this product in accordance with good agronomic practices, which include utilizing proven spray equipment set for proper coverage. If applied as a foliar spray, do not make applications when air temperatures are too hot, as crop damage may occur. Foliar applications should be made only when temperature levels and other environmental conditions in your area are such that your experience indicates that the application may be made without adverse effects and will accomplish the desired result.

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal condition of use, but neither this warrant nor any other warranty, whether express or implied, including a warranty of merchantability or a warranty of fitness of purpose, extends to or applies to the use of this product in a manner contrary to label instructions or under abnormal conditions, including but not limited to abnormal environmental conditions, not reasonably foreseeable to the seller, and in such event or conditions the buyer assumes the risk of any adverse result from use of the product.
